

Stemazing Inspiration Academy

Be curious. Be creative. Be courageous.
Be STEMazing!

STEM is the combination of Science, Technology, Engineering and Maths. STEM actively promotes a young person's curiosity, creativity and courage. Not enough children have the opportunity to explore and engage in STEM activities. We want to change that.

The STEMazing Inspiration Academy is a FREE programme of LIVE online STEM sessions designed to engage and inspire children aged 7 - 9 years. Each week the children take part in a 40 min activity over Zoom using only basic resources.

All sessions are delivered by women in STEM to showcase female role models and support changing outdated perceptions of what a scientist, technologist or engineer looks like.

Engage

Sessions are live, interactive and designed to be simple and fun to do over Zoom.

Reward

Children create their own STEM masterpiece each week and receive electronic certificates.

Inspire

Dedicated to inspiration and impact. All sessions are run by inspiring female STEM role models.

INSPIRATION ACADEMY WINTER PROGRAMME

TIMESCALE

- Six week programme will be delivered in Nov and Dec 2023.
- There is some flexibility in this programme to accommodate the needs of your school.

DELIVERY

- All sessions will be delivered remotely using Zoom.
- These sessions can be run as an after-school club where families log on at home, or run at a time to suit the school in the school day so the class can do the session together.
- You can agree the best time to run the live sessions with your assigned STEMAZINGWomen role model in advance.

RESOURCES

- Resources needed for the STEM activities and experiments are simple things like paper, sellotape, a balloon, pipette, vegetable oil, food colouring, straws.
- We will provide you with the resources list in advance. If budget for these resources is a barrier to participation you can apply for some resources to be sent to your school. Please note we can not supply resources to all schools.

GET INVOLVED

- To register your interest in taking part in our Stemazing Inspiration Academy please visit www.stemazingltd.com/inspiration-academy.
- Registration will open in July 2023, downselection in August and notification in September.

Feedback from Schools

"We loved it, thank you so much" Rayleigh Primary School

"These workshops have become the highlight of the children's week in school." Chalgrove Primary

"Every week the children are asking when STEM is because they are so excited." Holbrook Primary

"These sessions have inspired our children - they look forward to the sessions and have researched and tried things at home."
